

EP-14 ELECTRIC OUTBOARD FEATURES AND BENEFITS

- · Reliable and durable construction with minimal maintenance required
- Available in tiller or top- and side-mount throttle control
- · All motors available in long- or short shaft models
- Traditional design with standard aluminum casting so replacement parts are readily available
- · Water-cooled system that prevents over-heating
- Multiple safety precautions including over-speed protection, overload protection, temperature protection, over-voltage and over-current protection
- · Consistent power throughout the speed range
- · Brushless PMAC motor that is over 90-percent efficient
- Cruise with peace of mind thanks to our "Get Home Safe" battery alert system
- Motors ranging from 5-HP to 50-HP
- · Clean cruising without the hassles and hazards of gasoline
- · Low cost of operation when compared to traditional gas motors
